Dear Dr. Kuehler,

Please accept this painting as a token of appreciation for what you have done for both myself and my son, Peter - 5 yrs ago (AUM).

After almost a year of severe pain, both in my lower spine and legs - you have provided me with hope for a normal life - living without pain and - in time - to be able to follow my two favourite things, in life. Trail walking and dancing! (in addition to my painting). Thank you!

Very sincerely,

Barbara Sutton and Peter!
